

DENVER PEOPLE HAVE NO RIGHTS

Not Allowed to Uncover Frauds
in the Recent Municipal Election.

LOWER COURTS ENJOINED

LATEST MOVE OF GABBERT AND
HIS PALS.

Denver, July 2.—By a decision of the state supreme court today District Judge John I. Mullins of the criminal court is prohibited from appointing elisors to draw a special grand jury to investigate alleged frauds at the city election on May 15 last, and a special prosecutor to conduct such an investigation.

The supreme court held that Judge Mullins had no cause for removal of District Attorney George Stidger and Sheriff Nesbitt, who, it was alleged by the Honest Elections League, was unfit to conduct the investigation, as they were interested parties.

No Right to Inquire.

It was further decided that Judge Mullins had the right to inquire into election frauds to ascertain whether there was sufficient evidence of crime on which to base a call for a grand jury; that he had no right to compel witnesses to testify in the taking of such testimony, nor to punish them when they refused to so testify, and that he was in error in fining Republican Chairman F. A. Williams and the Democratic chairman, W. T. Davoren, \$250 each for refusing to be sworn in the preliminary grand jury hearing.

Judge Johnson Enjoined.

The supreme court also made permanent its writ of prohibition restraining District Judge Frank J. Johnson from proceeding with his investigation into the election at which the Denver City Tramway and the Denver Gas & Electric companies secured, on the face of the returns, a renewal of their franchises. The court held that Judge Johnson had no right to appoint watchers at the polls, and he is enjoined from attempting to discover if any violations of his injunction order were committed.

Case of Doherty.

In the case of Henry L. Doherty, president of the Denver Gas & Electric company, sentenced to jail by Judge Johnson for contempt in refusing to give testimony, the supreme court ruled that Mr. Doherty's attorneys had taken the wrong method in applying to the supreme court for relief. Instead of asking for a writ of supersedeas they should have come to the supreme court on a writ of error. Mr. Doherty will now change his plea, and the question will be heard on its merits.

Two Justices Dissented.

Justices Steele and Gunter dissented from the decision enjoining the district court judges.

Justice Steele read the dissenting opinion, in which Justice Gunter concurred, sharply criticizing the majority of the court for the manner in which it had conducted the hearings and alleging that the decisions had been agreed upon at star chamber sessions, at which no opportunity had been given the minority members to be heard. Chief Justice Gabbert denied the charges.

CIVIL SUITS REMAIN.

Honest Elections League Abandons Criminal Action.

Denver, Colo., July 2.—Decisions announced by the supreme court today in matters arising from the election in Denver on May 15 last put an end to the investigations begun in the district court of the alleged issuance of bogus tax receipts and other methods declared by the Municipal Ownership League to be illegal by means of which small majorities were secured for the new twenty-year franchises sought by the Denver company.

As the supreme court granted a writ of supersedeas which prevents the removal of the district attorney and sheriff by District Judge John I. Mullins and the calling of a special grand jury, the attorneys for the Municipal Ownership League and the League for Honest Elections announced that they would take no further action relative to a grand jury investigation. Civil suits to invalidate the franchises, however, will be carried on.

RACE WAR IMMINENT.

Negroes Seek Revenge for Lynching of Young Davis.

Guthrie, Okla., July 2.—A State Capital special from Purcell, I. T., late this afternoon states that intense excitement is prevailing from the report that negroes of Womack have armed themselves with the intention of shooting members of the mob that burned Will Davis, a negro, for assaulting the 14-year-old daughter of Ira Robertson, a prominent farmer near Womack.

This morning heavily armed posses of business men and farmers left Norman, Okla.; Noble, Okla., and Purcell for Womack. Three leaders of the mob of white men are declared to have been marked for assassination and further trouble or serious character is hourly expected.

Judge Dickerson of Chickasha has announced that he will immediately empanel a special grand jury to investigate the murder of Davis.

ALTON OFFICIALS ON TRIAL

Defendants Charged With Granting Rebates—Counsel Agree Upon Facts.

Chicago, July 2.—John N. Faithorn and Fred A. Wann, former officials of the Chicago & Alton railroad, were placed on trial today in the United States district court on the charge of granting illegal rebates to the Schwarzchild & Sulzberger Packing company of this city.

A jury was secured in a short time, and the court was informed that counsel in the case had agreed upon the facts covered in the first eight counts of the indictments and that only a small amount of evidence will be necessary under the remaining two counts. The indictments charge the defendants with granting a rebate of \$1 on every car of meat shipped from its plant in Kansas City. The defendants claim that the money was paid for another purpose. The last two counts of the indictments charge that the employees of the packing company were carried by the railroad free of charge, because after purchasing tickets in the regular way they would be given receipts and later the amount would be returned by the railroad to Schwarzchild & Sulzberger, and that this constituted a rebate.

SECRETARY WILL MISS VACATION

Agricultural Department Preparing to Operate Under Meat Inspection Law.

STATEMENT IS GIVEN OUT

AMERICAN MEAT THE BEST IN THE WORLD.

Washington, July 2.—Secretary Wilson of the department of agriculture has decided not to enter upon his annual vacation until he has completed the organization necessary to put into operation the new meat inspection law. He will give practically his entire time to this work for the next two months. The new pure food law will also require attention, but he intends to leave this almost wholly to Dr. H. W. Wiley, chief of the bureau of chemistry.

Wilson's Statement.

By direction of the president, Secretary Wilson today issued the following statement:

"American livestock are the healthiest in the world. The great ranges of the west produce herds of cattle in which the percentage of disease is remarkably small, and the federal government is steadily reducing, by approved scientific methods, this small percentage. The inspection of the animals before and at the time of slaughter has always been thorough. It is true that the department of agriculture has heretofore lacked the power and the money to provide for an efficient supervision and sanitation and the methods of preparation of canned meat food products.

From Pasture to Package.

"The legislation which has just become effective provides the department of agriculture with an adequate law, and with ample money to carry it into effect, supervision and inspection will be extended from the pasture to the package. The federal stamp upon the can will be a guarantee, not only of the healthfulness of the animal, but also that the product was prepared in sanitary surroundings, and with the addition of no deleterious chemical or preservatives, any meat food product bearing the government stamp will be fit for food.

Best in the World.

"With this law in operation, it may be accepted as a fact that for healthfulness and purity the prepared or canned product will compare favorably with the fresh meat of the United States, which is, and always has been, the finest in the world.

"The new law is comprehensive, the means for its enforcement are ample and its execution will be thorough. People at home and abroad may use our meats in confidence."
